

PayU Interview - DSA Question Bank

Linked Lists

- Cycle Detection in a Singly Linked List - Use two pointers (slow and fast).
- Reverse a Linked List.
- Merge Two Sorted Linked Lists.
- Delete a Node Given Only a Pointer to It.

Dynamic Programming

- Palindrome Partitioning II - Minimum cuts to make all substrings palindromes.
- Subset Sum Equal to K.
- Kadane's Algorithm - Maximum subarray sum.
- Count Ways to Reach the N-th Stair.

Trees & Graphs

- DFS Traversal in Disconnected Graph.
- Cycle Detection in Undirected Graph.
- Left View of Binary Tree.
- Top View of Binary Tree.
- Lowest Common Ancestor (LCA) in Binary Tree.

Arrays & Strings

- Dutch National Flag Problem.
- Maximum Difference in Array.
- Spiral Order Matrix Traversal.
- Reverse Only Letters in a String.
- Replace Spaces in a String with '@40'.

Puzzles & Miscellaneous

- 100 Doors Puzzle.

PayU Interview - DSA Question Bank

- Average Salary Without Disclosing Individual Salaries.
- Design a Corpus Search Engine.

Additional Topics

- OOP Concepts - Abstraction, Encapsulation, Inheritance, Polymorphism.
- SQL Queries - JOINS, GROUP BY, Normalization.
- Operating Systems - Mutexes, Semaphores, Deadlocks, Paging.
